

Certified Home Health Aide Detailed Test Plan

Effective: April 2024

CHHA Detailed Test Plan

This detailed test plan reflects the results of a national job analysis study that determined the critical job competencies to be tested by NCCT in this certification examination. It contains 125 scored items, 25 unscored pretest items and candidates are allowed three (3) hours to complete the examination. This certification examination is comprised of 92% standard, 4-option multiple-choice items and 8% alternative items (e.g., Drag and Drop, Multi-Select, Hotspot).

Number of Scored Items	Content Categories
15	1 Infection Prevention <ol style="list-style-type: none">1 Apply universal precautions and principles of infection prevention.2 Use Personal Protective Equipment (PPE), per CDC guidelines.3 Identify signs and symptoms of infections.4 Change the client's bedding (i.e., occupied or unoccupied).5 Handle soiled linens and equipment safely.

Essential Knowledge Base:

Apply a working understanding of these integrated concepts:

- 1 Universal Precautions
- 2 Personal Protective Equipment
- 3 Biomedical Waste
- 4 Signs and Symptoms of Infection
- 5 Vital Signs
- 6 Patient Assessment
- 7 Documentation Procedures
- 8 Reporting Procedures
- 9 Basic Anatomy and Physiology
- 10 Basic Medical Terminology
- 11 Body Mechanics
- 12 Emergency Protocols
- 13 Environmental Safety Hazards
- 14 Assistive Devices
- 15 Durable Medical Equipment
- 16 Transfer Techniques
- 17 Ambulation
- 18 Dietary Restrictions
- 19 Toileting
- 20 Bathing
- 21 Grooming
- 22 Feeding
- 23 First Aid Techniques
- 24 Level of Assistance
- 25 Progressive Illnesses
- 26 Chronic Diseases
- 27 Patient Privacy and Dignity
- 28 Federal and State Laws and Regulations
- 29 Code Status
- 30 Scope of Practice
